

INCOME OUTCOME: BUSINESS FINANCIAL SIMULATIONS OFFERINGS

Income Outcome: Business Financial Simulations helps managers, sales representatives, operations staff and others understand how they impact the business and their company's bottom line. Participants learn about business by playing a simulation game modeling your sales or service industry. They compete with others to win sales, manage cash flow and run their business for profit. As they play the simulation they learn how to price products, manage cash flow, manage inventory, fill capacity and calculate simple business ratios.

OVERVIEW

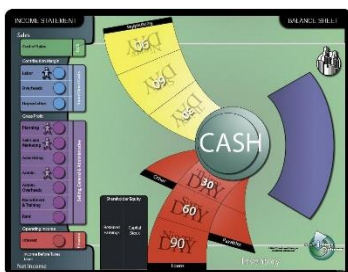

Participants will take part in a team-based learning approach that teaches the fundamentals of bottom line impact initiatives and "why we are doing what we are doing" so they can drive results.

Our Business Financial Simulation offerings are divided into 5 different simulations to choose from.

| | |
|---------|--|
| Level 1 | Builds basic business acumen for all team members (1/2 Day) |
| Level 2 | Introduces challenges for the team members (1 Day) |
| Level 3 | For managers who analyze, forecast, and plan (1.5 Days) |
| Level 4 | Simulates more complex sales and marketing challenges for senior executives (2 Days) |
| Level 5 | Focuses on managing a global business (3 days) |

Participants will gain a firm grasp of basic business finance terminology, how the parts of your business are interconnected, and how their actions impact your organization's bottom line.

Business Financial Simulations Game Board

APPROACH

Pre-work: An online survey measures the participant's basic knowledge of financial terms and concepts.

Workshop: Participants learn business acumen by competing in a board game simulation. This program will provide participants with the ability to:

- Prepare budgets, targets, and forecasts
- Set prices, manage cash flow, sales, costs and profits
- Prepare operating reports and financial reports
- Target profit opportunities
- Understand simple financial ratios and prioritize and control costs
- Reduce inventories and manage working capital
- Use key take aways to make your business better

Follow-up and Reinforcement: Ensures your organization supports the use of the new skills

- Interactive emails with answers to the pre-workshop questions and tips on how they can use that information with their growers
- Coaching tips sheets are provided for the sales manager to coach and reinforce the skills learned

PROGRAM OUTCOMES

Income-Outcome: Business Financial Simulations helps participants develop the skills to talk the language of business with internal and external customers. In addition, participants make decisions to improve their company's financial position as well as build practical experience in budgeting, forecasting, and measuring performance.

INCOME-OUTCOME
